# through the lens

See what develops between Michael & Gary · Photographed by Body Image Productions

**He'd never done this before,** he told the photographer. He wouldn't have thought anyone would want to take his picture. "Are you kidding?" Gary said. "You're hot stuff." Michael blushed and a smile spread across his face. With each click of the camera, he could feel his dick get a little harder. This was turning

With each click, his cock got harder.

him on. "You look great," Gary said enthusiastically, snapping away. When he'd finished the roll, he said, "Now, let's try something different." "Like what?" Michael asked, trying to subtly cover his ever-growing erection. "Lean back and spread your

legs a bit," Gary said, helping Michael slide down the leather chaise. Gary's cool hand felt good on his warm chest, and Michael's cock bounced. Gary took notice and started shooting close-ups of Michael's beautiful erect cock. Pre-come slowly began to leak out of Michael's cock head and his balls started to tighten up. "I don't know how much longer I can go," the

photographer said. "You out of film?" Michael asked, looking almost disappointed. "No, I mean, I don't know how much longer I can go without touching you," Gary replied. Michael smiled and looked into the photographer's eyes. He reached out and took hold of the photographer's belt buckle. "Let's not make you wait any longer then," Michael said, pulling open Gary's pants and hauling out the old fella's hefty cock. They massaged each other's dicks simultaneously, and explored other body parts with their free hands. "I don't usually attack my subjects like this," Gary begged off sheepishly, "but with you… I just couldn't help myself." Michael gave him a warm smile and thanked him by stuffing Gary's fat cock in his mouth. He could fit maybe half of the tube down his throat before gagging on it. "Easy," Gary said, massaging Michael's scalp. "It's really big," Michael said, licking the head of the engorged penis. "So's yours," Gary replied with a smile. "It's real nice, too. Think maybe you'll wanna stick it up my ass?" Michael squirmed under Gary's gaze. He kissed the photographer and licked his neck up to his ears. "Actually," he whispered, "I'm a bottom." Michael took Gary's ear in his mouth and sucked on the lobe. "So I was kinda hoping you could fuck me," he continued. Gary shut his eyes and smiled. "Actually, I was kinda hoping I could too," Gary answered quietly. He slid both

Michael groaned as he felt a finger penetrate his hole.

Gary smiled when the

young man said, "Your dick's so big."

hands down Michael's muscular back and squeezed his slightly-furry butt cheeks. Pushing him up by his ass, Gary maneuvered Michael so he was straddling his face. He took Michael's large, drooling prick into his mouth and worked his fingers into the hairy crack of Michael's warm ass. He rubbed the sweet hole in the middle with his index finger, and as he gulped down Michael's cock, slid a finger into Michael's moist tunnel. Michael let out a moan and pushed his dick further down Gary's throat. Gary shoved two more fingers up Michael, and was now really working his hole over. "Fuck me," Michael sighed heavily. With his mouth still full of rock-hard cock, Gary looked up into his model's eyes. Michael was staring at the photographer. "Fuck me," he repeated. "Now." Gary let Michael's dick slip from between his lips and pushed the sexy stud down his body so Michael's ass grazed over Gary's chest before coming to rest on his throbbing tool. Michael reached back and guided Gary's dick to his opening. Slowly, Gary pushed into the warm, smooth velvety opening. Michael closed his eyes and leaned his head back. He moaned a long, slow "yeah" as he sank further down Gary's big fuck stick. Gary played with Michael's nipples and watched as Michael's hard cock bounced from side to side with each thrust up into the young man. This was definitely going in the books as his favorite photo shoot—ever.
