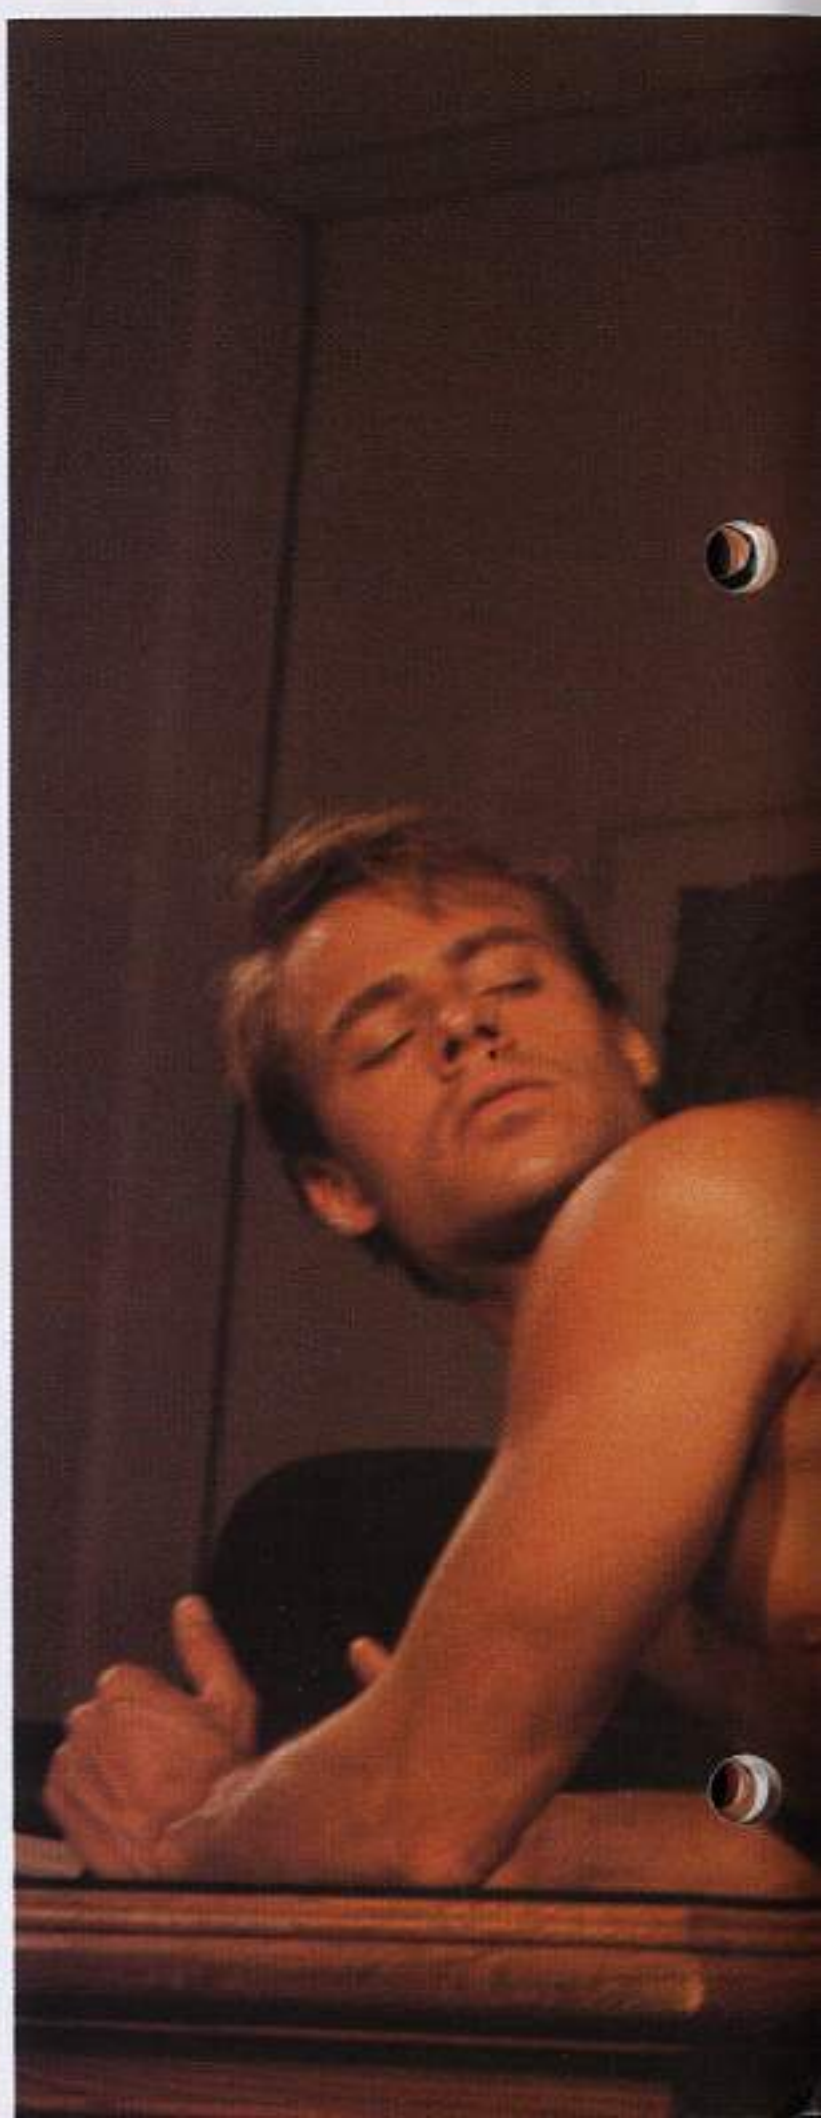
ty me up

Ty Fox (opposite page) is delightfully loony in his debut vehicle for Catalina. He is beautiful in every sense of the word, but his charm really shines through his facial expressions and his sweet southern drawl. He's a grand dirty talker too. Co-star Scott Hardman is a bitchy porn star on the verge of retirement. Obsessive fan Fox tracks down Hardman's house, knocks him out cold and keeps his idol hostage in his own home. Fox gets more lax with his captive as the days progress, spending the time together laughing at bad porn movies. When Fox runs off to the drug store one day, Hardman's nosey mechanic discovers him and helps him escape, much to Fox's chagrin. Hardman returns to find a teary eyed Fox, and the two make whoopie as a symbol of their heavily dysfunctional love.



Our tale begins at the Forest Grove Sanitarium. Head shrink Tim Barnett (below, left) releases Fox from his incarceration. Barnett apparently threw the Hippocratic Oath out the window and began to seduce his mentally ill charge. Before leaving, Fox gives his doctor one more butt-full of sugar. Co-dependency was never this much fun!
